- **Amended, extended and upsized credit facility:** Increased our term loan from \$75.0 million to \$160.0 million, inclusive of a delayed draw component, and increased our revolver from \$85.0 million to \$100.0 million, while extending the maturity date of our term loan for five years and extending the maturity date of our revolver for four years. The LIBOR-based interest rate was reduced by 10 basis points;

Fourth Quarter 2019 Results: Core FFO available to common shareholders and Non-controlling OP Unitholders for the quarter ended December 31, 2019 was \$13.2 million, a 4.4% increase when compared to the quarter ended September 30, 2019, equaling \$0.40 per share. Core FFO increased primarily due to an increase in total operating revenues from the nine properties acquired during the quarter ended December 31, 2019, coupled with a decrease in interest expense due to lower one-month LIBOR rates on our variable rate debt. This was partially offset by an increase in property operating expenses.

Fiscal Year 2019 Results: Core FFO available to common stockholders and Non-controlling OP Unitholders for the year ended December 31, 2019, was \$50.7 million, a 7.8% increase when compared to the year ended December 31, 2018, equaling \$1.58 per share. On a per share basis, this equates to a 0.6% decrease to Core FFO. Core FFO increased primarily due to the increase in rental income from 2019 acquisitions and re-leased vacant space, partially offset by an increase in net property operating expenses and an increase in interest expense.

Net loss attributable to common stockholders and Non-controlling OP Unitholders for the three months and year ended December 31, 2019 was \$(5.4) million and \$(4.8) million, or \$(0.18) and \$(0.16) per share, respectively, compared to net (loss) income (attributable) available to common stockholders for the three months ended September 30, 2019 and year ended December 31, 2018 of \$(0.6) million and \$1.0 million, or \$(0.02) and \$0.03 per share, respectively. A reconciliation of Core FFO to net (loss) income for the three months ended December 31, 2019 and September 30, 2019 and the years ended December 31, 2019 and 2018, which we believe is the most directly comparable GAAP measure to Core FFO, and a computation of basic and diluted Core FFO per weighted average share of common stock and Non-controlling OP Unit and basic and diluted net income per weighted average share of common stock and Non-controlling OP Unit is set forth in the Summary Information table above.

Subsequent to the end of the quarter:

- **Acquired properties:** Acquired a \$5.3 million industrial property located in Indianapolis, Indiana at a cap rate of 7.24%, which is 100% leased to three tenants for a weighted average lease term of 7.2 years and also acquired a \$34.7 million three property industrial portfolio with locations in Houston, Texas; Charlotte, North Carolina; and St. Charles, Missouri, at a cap rate of 7.59%, which is 100% leased to one tenant for a 20 year lease term;
- **Issued stock under ATM programs:** Issued 1.3 million shares of common stock for net proceeds of \$27.9 million;
- **Renewed leases:** Renewed a tenant in one of our Springfield, Missouri properties for an additional five years, with a new maturity date of May 31, 2026 and renewed our tenant in our Englewood, Colorado property for an additional five years, with a new maturity date of December 31, 2026;
- **Filed universal shelf:** Filed an additional universal registration statement which allows us to issue up to an additional \$800.0 million of securities;
- **Declared distributions:** Declared monthly cash distributions for January, February and March 2020 totaling \$0.37545 per share on our common stock and Non-controlling OP Unit, \$0.4374999 per share on our Series D Preferred Stock, \$0.414063 per share on our Series E Preferred Stock, and \$0.2625 per share on our senior common stock.

Comments from Gladstone Commercial's President, Bob Cutlip "Our financial results reflect consistent performance and stabilized revenues from our tremendous same store property occupancy and rent growth, accretive real estate investments made during 2018 and 2019, and our ability to lease previously vacant space as well as our deleveraging and capital recycling programs. We have successfully executed our focus on industrial assets, by investing \$130.3 million in 18 industrial properties in our target growth markets during 2019, and eclipsed one billion dollars in assets. We have continued to expand our industrial portfolio in 2020, by investing \$40.0 million in four industrial assets. We anticipate our robust pipeline will result in successful acquisitions during the remainder of 2020 and beyond. We have continued our capital recycling program, whereby we have sold non-core assets and used the proceeds to de-lever our portfolio, as well as acquire properties in our target growth markets. We successfully exited one non-core asset during 2019, recognizing a net gain of \$3.0 million, and we anticipate exiting another non-core asset during the first quarter of 2020. We are extremely pleased with our solid performance over the last several years, including same store cash rents increasing by approximately 2%. We believe our same store rent should be stable and rising as we continue our growth. We will continue to focus on investing in new properties, with an emphasis on industrial acquisitions, which we believe will improve operating efficiencies and reduce portfolio capital expenditures. We are looking forward to continued growth and success for our shareholders."

Non-GAAP Financial Measures:

FFO: The National Association of Real Estate Investment Trusts ("NAREIT") developed FFO as a relative non-GAAP supplemental measure of operating performance of an equity REIT in order to recognize that income-producing real estate historically has not depreciated on the basis determined under GAAP. FFO, as defined by NAREIT, is net income (computed in accordance with GAAP), excluding gains (or losses) from sales of property and impairment losses on property, plus depreciation and amortization of real estate assets, and after adjustments for unconsolidated partnerships and joint ventures. FFO does not represent cash flows from operating activities determined in accordance with GAAP and should not be considered an alternative to net income as an indication of its performance or to cash flow from operations as a measure of liquidity or ability to make distributions. The Company believes that FFO per share and unit provides investors with an additional context for evaluating its financial performance and as a supplemental measure to compare it to other REITs; however, comparisons of its FFO to the FFO of other REITs may not necessarily be meaningful due to potential differences in the application of the NAREIT definition used by such other REITs.

FFO as adjusted for comparability: FFO as adjusted for comparability is FFO adjusted for certain items that are not indicative of the results provided by the Company's operating portfolio and affect the comparability of the Company's period-over-period performance. These items include the adjustment for non-recurring expense adjustments related to the write off of offering costs pertaining to redeemed securities. Although the Company's calculation of FFO as adjusted for comparability differs from NAREIT's definition of FFO and may not be comparable to that of other REITs, the Company believes it is a meaningful supplemental measure of its operating performance. Accordingly, FFO as adjusted for comparability should be considered a supplement to net income computed in accordance with GAAP as a measure of our performance.

Core FFO: Core FFO is FFO adjusted for certain items that are not indicative of the results provided by the Company's operating portfolio and affect the comparability of the Company's period-over-period performance. These items include the adjustment for acquisition related expenses, gains or losses from early extinguishment of debt and any other non-recurring

expense adjustments. Although the Company's calculation of Core FFO differs from NAREIT's definition of FFO and may not be comparable to that of other REITs, the Company believes it is a meaningful supplemental measure of its operating performance. Accordingly, Core FFO should be considered a supplement to net income computed in accordance with GAAP as a measure of our performance.

The Company's presentation of FFO, as defined by NAREIT, FFO as adjusted for comparability, or presentation of Core FFO, does not represent cash flows from operating activities determined in accordance with GAAP and should not be considered an alternative to net income as an indication of its performance or to cash flow from operations as a measure of liquidity or ability to make distributions.
