Second Quarter Activity:

- **Collected 100% of cash rents owed during the second quarter 2021:** We collected 100% of cash rents due during April, May, and June;
- **Acquired property:** Acquired a 25,200 square foot industrial facility in Baytown, Texas for \$8.2 million, which is 100% leased to one tenant for 12.6 years;
- **Renewed leases:** Renewed 471,567 square feet with remaining lease terms ranging from 6.1 to 9.5 years at three of our properties;
- **Leased vacant space:** Leased 308,156 vacant square feet with lease terms ranging from 5.2 years to 12.5 years at three of our properties;
- **Issued preferred stock:** Issued 4,000,000 shares of newly designated 6.00% Series G Preferred Stock, raising net proceeds of approximately \$96.6 million;
- **Redeemed Series D Preferred Stock:** Redeemed all of our 7.00% Series D Preferred Stock for a total redemption payment of approximately \$88.3 million;
- **Issued common stock under ATM program:** Issued 379,412 shares for net proceeds of \$8.1 million; and
- **Paid distributions:** Paid monthly cash distributions for the quarter totaling \$0.37545 per share on our common stock and Non-controlling OP Units, \$0.4374999 per share on our Series D Preferred Stock, \$0.414063 per share on our Series E Preferred Stock, \$0.375 per share on our Series F Preferred Stock, and \$0.2625 per share on our senior common stock.

Second Quarter 2021 Results: Core FFO available to common shareholders and Non-controlling OP Unitholders for the three months ended June 30, 2021 was \$13.6 million, an 11.5% decrease when compared to the three months ended March 31, 2021, equaling \$0.37 per share. Core FFO decreased due to a decline in lease acceleration rent at three of our properties in the first quarter 2021 and higher general and administrative expenses.

Net loss attributable to common stockholders and Non-controlling OP Unitholders for the three months ended June 30, 2021 was \$3.1 million, or \$0.08 per share, compared to the three months ended March 31, 2021 of \$3.0 million, or \$0.08 per share. A reconciliation of Core FFO to net loss for the three months ended June 30, 2021 and March 31, 2021, which we believe is the most directly comparable GAAP measure to Core FFO, and a computation of basic and diluted Core FFO per weighted average share of common stock and Non-controlling OP Unit and basic and diluted net loss per weighted average share of common stock and Non-controlling OP Unit is set forth in the Summary Information table above.

Subsequent to the end of the quarter:

- **Collected 99% of July cash rent:** Collected 99% of July cash rent owed;
- **Acquired property:** Acquired an 80,604 square foot industrial facility in Pacific, Missouri for \$22.1 million, which is 100% leased to one tenant with a remaining lease term of 17.4 years;
- **Renewed leases:** Renewed 104,446 square feet with remaining lease terms ranging from 0.3 to 10.4 years at three of our properties;
- **Issued common stock under ATM program:** Issued 95,218 shares for net proceeds of \$2.1 million;
- **Issued Series F Preferred Stock:** Issued 74,560 shares for net proceeds of \$1.7 million; and
- **Declared distributions:** Declared monthly cash distributions for July, August, and September 2021, totaling \$0.37545 per share on our common stock and Non-controlling OP Units, \$0.414063 per share on our Series E Preferred Stock, \$0.375 per share on our Series G Preferred Stock, \$0.375 per share on our Series F Preferred Stock, and \$0.2625 per share on our senior common stock.

Comments from Gladstone Commercial's President, Bob Cutlip: "Our financial results reflect consistent performance and stabilized revenues from our tremendous same store property occupancy, rent collection and growth, accretive real estate investments made during 2020 and the first six months of 2021, and our ability to renew tenants, as well as our deleveraging and capital recycling programs. We had an outstanding start to 2021, by investing \$41.1 million in three industrial assets in our target markets. We have continued our capital recycling program, whereby we have sold non-core assets and used the proceeds to de-lever our portfolio, as well as acquire properties in our target growth markets. We have successfully exited two non-core assets so far during 2021, and we have additional non-core assets we anticipate selling in the next one to two years that we believe will result in capital gains. We will continue to opportunistically sell non-core assets and redeploy the proceeds into stronger target growth markets with a focus on industrial investment opportunities. While we expect to face challenges due to the continuing COVID-19 pandemic, we feel strongly about the depth of our tenant credit underwriting. We have collected 100% of second quarter cash rents and 99% of July cash rents. We anticipate our tenants will successfully navigate the current economic climate and will be able to continue operating successfully when remaining operating restrictions are lifted and economic normalcy returns. Despite economic uncertainty, so far during 2021 we were able to lease 497,366 vacant square feet with four tenants and renew 768,874 square feet with eight tenants. We are in good standing on our credit facility, which continues to provide us added flexibility on our balance sheet. We amended our credit facility to add a \$65.0 million term loan, with a \$15.0 million delayed funding component, which was drawn subsequent to the end of the quarter to help fund an acquisition. We also raised \$100.0 million with the issuance of our new 6.00% Series G Preferred Stock and used the majority of the proceeds to redeem our 7.00% Series D Preferred Stock, saving on dividend costs to lower our overall cost of capital. We are actively marketing our remaining vacant space and anticipate positive outcomes. We expect to continue to have access to the debt and equity markets, as necessary, for added liquidity. We are extremely pleased with our solid performance over the last several years. We believe our same store rents, which have increased by 2% annually in recent years, should be stable and rising as we continue our growth. We will continue to primarily focus on investing in our target markets, with an emphasis on industrial properties and actively managing our portfolio. We are looking forward to continued growth and success for our shareholders."

Non-GAAP Financial Measures:

FFO: The National Association of Real Estate Investment Trusts (“NAREIT”) developed FFO as a relative non-GAAP supplemental measure of operating performance of an equity REIT in order to recognize that income-producing real estate historically has not depreciated on the basis determined under GAAP. FFO, as defined by NAREIT, is net income (computed in accordance with GAAP), excluding gains (or losses) from sales of property and impairment losses on property, plus depreciation and amortization of real estate assets, and after adjustments for unconsolidated partnerships and joint ventures. FFO does not represent cash flows from operating activities determined in accordance with GAAP and should not be considered an alternative to net income as an indication of its performance or to cash flow from operations as a measure of liquidity or ability to make distributions. The Company believes that FFO per share provides investors with an additional context for evaluating its financial performance and as a supplemental measure to compare it to other REITs; however, comparisons of its FFO to the FFO of other REITs may not necessarily be meaningful due to potential differences in the application of the NAREIT definition used by such other REITs.

FFO as adjusted for comparability: FFO as adjusted for comparability is FFO adjusted for certain items that are not indicative of the results provided by the Company’s operating portfolio and affect the comparability of the Company’s period-over-period performance. These items include the adjustment for non-recurring expense adjustments related to the write off of offering costs pertaining to redeemed securities. Although the Company’s calculation of FFO as adjusted for comparability differs from NAREIT’s definition of FFO and may not be comparable to that of other REITs, the Company believes it is a meaningful supplemental measure of its operating performance. Accordingly, FFO as adjusted for comparability should be considered a supplement to net income computed in accordance with GAAP as a measure of our performance.

Core FFO: Core FFO is FFO adjusted for certain items that are not indicative of the results provided by the Company’s operating portfolio and affect the comparability of the Company’s period-over-period performance. These items include the adjustment for acquisition related expenses, gains or losses from early extinguishment of debt and any other non-recurring expense adjustments. Although the Company’s calculation of Core FFO differs from NAREIT’s definition of FFO and may not be comparable to that of other REITs, the Company believes it is a meaningful supplemental measure of its operating performance. Accordingly, Core FFO should be considered a supplement to net income computed in accordance with GAAP as a measure of our performance.

The Company’s presentation of FFO, as defined by NAREIT, FFO as adjusted for comparability, or presentation of Core FFO, does not represent cash flows from operating activities determined in accordance with GAAP and should not be considered an alternative to net income as an indication of its performance or to cash flow from operations as a measure of liquidity or ability to make distributions.
